

The University of Greifswald's Faculty of Mathematics and Natural Sciences is seeking candidates for the position of

**“Professor” of Pure Mathematics (W3)**

for appointment by 01 April 2024.

We are looking for an internationally recognised academic whose research focuses on the field of algebra, geometry and topology. The professorship collaborates with the existing research groups in the research focus algebra/geometry/topology and complements them thematically in a meaningful way. The new professor will open up long-term perspectives for the research focus, which will enable collaborations for future structured third-party funded projects. In addition, the candidate should have a strong track record of high-ranking publications, teaching experience and experience in acquiring external funding. The future holder of the position will be expected to participate appropriately in the Institute's teaching duties and in academic self-administration.

Applicants must fulfil the requirements for a university professor according to § 58(1) of the *Landeshochschulgesetz* – LHG M-V (State Higher Education Act): a university degree, teaching aptitude and a high level of scientific research, which is generally documented by an outstanding doctoral degree. Further academic achievements are expected. § 58(2) LHG M-V stipulates that these are usually proven by a junior professorship, habilitation or equivalent.

In accordance with § 61 LHG M-V, the appointed professor will be assigned the status of a civil servant (*Beamtenverhältnis*) with unlimited tenure; alternatively, if the applicant is not permanently available: limited tenure as a civil servant or public service employee. As a general rule, permanent tenure as a civil servant (*Beamtenverhältnis auf Lebenszeit*) can only be awarded for the first time to persons who have not yet ended their 50th year of life when they enter employment.

This vacancy is open to all applicants, irrespective of gender. The University would like to increase the proportion of women in areas in which they are underrepresented and thus applications from women are particularly welcome and will be treated with priority if they have the same qualifications and as long as there are no clear reasons which make a fellow applicant more suitable. Women are specifically encouraged to apply for the position. Severely disabled applicants with the same professional and personal qualifications will be considered with preference. Unfortunately, application costs (e.g. travel expenses for interviews) will not be reimbursed by the State of Mecklenburg-Vorpommern.

For more information, please contact Prof. Dr. Gerald Kerth, Dean of the Faculty of Mathematics and Natural Sciences.

Applications with all usual documents (Curriculum Vitae (CV) detailing the academic career, list of scholarly publications and courses taught, academic certificates, proof of teaching experience, details of externally raised funds, information on teaching concept and future research topics in Greifswald, details of previous involvement in academic committees) must be sent via email (one PDF file) by the **19 August 2022**, addressed to:
