

The Institute of Mathematics at the Carl von Ossietzky University in Oldenburg, invites applications for a postdoctoral position for a period of three years as

**Scientific assistant (wissenschaftlicher Mitarbeiter)**

(Entgeltgruppe 13 TV-L, 75% of regular working hours)

with a starting date as soon as possible

**Requirements:** The successful candidate is expected to conduct research in a field of geometric or singular analysis. A successful Ph.D. in a relevant area of mathematics is required.

**Tasks:** In addition to research, the tasks of the future candidate will include teaching, especially in the field of analysis. This includes participation in the institute's lectures and seminars, in examinations and in the guidance and counseling of tutors and students. In addition, active participation in the analysis work group is expected.

The teaching obligation is based on LVVO.

The Carl von Ossietzky University is an equal opportunity employer and strives to enhance the percentage of women in scientific research. Therefore, women are especially encouraged to apply. According to § 21 Abs. 3 NHG, female applicants with equal qualification will be given priority. Between identically qualified candidates, preference will be given to candidates who are physically handicapped.

Interested candidates should submit their application, including the usual documents and the names and addresses of two potential referees, by **January 7th, 2019** preferably by email as a single pdf-file, to the Institute for Mathematics, c/o Frau Antje Hagen (ifm@uni-oldenburg.de), Carl von Ossietzky Universität Oldenburg, 26111 Oldenburg, Germany.
